CHIEF COACHES REPORT 2023

First of all, may I take this opportunity to congratulate all the swimmers who achieved nationals this season and in particular those who medalled at National Level. I must also thank all the parents and swimmers for their welcome to the city with it being such a positive start for all and encouraging results.

Over the coming 12 months there will be changes to the programme with more clear squad moves being based on swimmer's levels of ability as previously sent out. The programme will also have the addition of links with the uni to improve the longevity of swimmers within the programme and encourage more swimmers into the programme who come to the city for university.

With the introduction of the new potential Olympian squad there will be more of an emphasis also on developing 8/9-year-olds within the club to ensure there is a base of athletes who are capable of achieving at the highest level of this sport.

May I take this opportunity to say thank you for the loyalty of those people who have stood by the club and squads over the last 12 months and wish them every success. I am excited to be a part of the clubs' future.

Darren Ashley
(Chief Coach)
